
Sir/Madam,

The All India Institute of Speech and Hearing was established with the major objectives of imparting professional training, rendering clinical services, conducting research and educating the public on issues related to communication disorders. As a part of the training activity, a national seminar on ‘Radiology for Cochlear Implants’, funded by ICMR, is scheduled on 28th February 2016 (Sunday). The programme aims to educate postgraduate students in Audiology / Speech & Hearing and practicing Audiologists regarding radiological evaluation and its importance in cochlear implant surgery. This would enable them to correlate radiological findings with cochlear implant mapping and rehabilitation. Eminent professionals such as Dr. Sanjay Vaid, Radiologist, Pune, and Dr. Neelam Vaid, ENT surgeon, Pune will serve as the resource persons. They have vast experience in the radiological aspects of cochlear implants. Additionally, Dr. Asha Yathiraj, audiologist, AIISH Mysuru will also serve as a resource person.

Post graduate students and practicing Audiologists are hereby invited to the seminar in order to broaden their knowledge in the area. Participants are requested to register on or before 18th February 2016 by sending the filled-in registration form (separate form for each participant) by post or by email. The postal address / email ID are provided in the registration form. The registration fee of ₹100 may be paid through cash / DD in favor of the Director, AIISH, payable at Mysuru). The maximum number of participants would be restricted to 60 on a first-come-first-serve basis. The registration form and the tentative program schedule are attached herewith.

Thank you,

Yours sincerely,
