**National Seminar on Non-aphasic Cognitive-Communication Disorders: Cutting-edge Clinical Applications**  
29th January 2013  

**Organized by**  
The Department of Speech-Language Pathology  
All India Institute of Speech and Hearing  
Manasagangotri, Mysore- 570 006
Communication is a complex skill which involves an interaction between speech, language and cognition. Cognitive processes include a range of functions such as attention, memory, thinking, reasoning and executive functions such as problem solving skills. On the other hand communication involves comprehension (e.g., listening, reading) and expression through verbal (e.g., speaking, writing) or nonverbal modalities (e.g. gesturing, sign language, etc.).

Adults and children who have experienced a cerebral infarct, traumatic brain injury (TBI), dementia, and alcohol induced disorders are found to exhibit some form of cognitive-communication disorders affecting their day-to-day activities.

TEAM APPROACH

It is imperative to evaluate cognitive-communication disorders in various contexts and determine appropriate intervention approaches in collaboration with a team of professionals such as the Neurologists, Neuro-psychiatrists, Speech-Language Pathologists, Audiologists, Clinical Psychologists, etc.

We are glad to announce that the Department of Speech-Language Pathology, AIISH, Mysore is organizing a “National Seminar on Non-Aphasic Cognitive–Communication Disorders: Cutting–Edge Clinical Application” on 29th January, 2013 at the All India Institute of Speech and Hearing, Mysore. The seminar is open for Master’s students of Speech-Language Pathology/Speech & Hearing and Speech-Language Pathologists.

OBJECTIVES OF THE SEMINAR

a) To discuss cutting-edge research questions in non-aphasic cognitive-communication disorders due to dementia, TBI, RHD and alcohol induced disorders.

b) To make an attempt to resolve clinical issues in terms of assessment and management of individuals with non-aphasia cognitive communication disorders.

c) To facilitate inter-disciplinary scientific discussions on diagnosis and treatment of non-aphasia cognitive-communication disorders.

The seminar will include lectures on various issues related to non-aphasic cognitive – communicative disorders by eminent speakers. We encourage more participants to come together to participate in the seminar and get involved in dialogue and synergy.

REGISTRATION FORM

NATIONAL SEMINAR ON NON-APHASIC COGNITIVE-COMMUNICATION DISORDERS: CUTTING-EDGE CLINICAL APPLICATIONS

Registration fees: Rs 500/- per person
